Contract No. 44000003970
Retainer Contract for Inspections of
State Regulated Dams
Statewide

Q1. The solicitation indicates that the CE&I (CC) Performance Rating will be used. I am aware of a (CS) Rating, but not (CC). It seems like Other (OT) would be most appropriate. Also, the way the Minimum Personnel Requirements are written, there is no opportunity to assemble a team for this contract. Is that the intent?

A1. CC is the new coding for CE&I. The old coding CS was for construction services which included more than just CE&I. The old rating will be considered as part of CC.

Q2. Please clarify the location evaluation factor for Contract No. 44000003970. The advertisement includes "statewide", however, in past retainer contracts for statewide projects, Marksville has been used. Will a location such as Marksville be used for this particular advertisement?

A2. Yes, Marksville will be used.
